1996 WASHINGTON – A federal bank examiner suggested in congressional testimony yesterday that Hillary Rodham Clinton ought to have known that a 1985 land deal arranged by an Arkansas thrift she represented was structured in a way that violated state law. http://articles.baltimoresun.com/1996-01-31/news/1996031014_1_castle-grande-madison-land-deal

The examiner, James T. Clark, told the Senate Whitewater Committee he found no evidence during his 1986 review of the thrift, Madison Guaranty Savings & Loan, that then-Arkansas Gov. Bill Clinton or his wife had been personally involved in a series of fraudulent transactions known as Castle Grande.

The lecture is based on Engdahls book "Seeds of Destruction: The Hidden Agenda of Genetic Manipulation" which is an eye-opener, a must-read for all those committed to the causes of social justice and World peace. F. William Engdahl is an American German freelance journalist, historian and economic researcher. "Seeds of Destruction: The Hidden Agenda of Genetic Manipulation" This lecture at the Open Mind Conference 2013, focuses on how a small socio-political American elite seeks to establish its control over the very basis of human survival, the provision of our daily bread. Control the food and you control the people. This is no ordinary lecture about the perils of GMO. https://www.youtube.com/watch?v=s4qA0Ue_sI4

Who was James McDougal, and his tie to Hillary? The activities of McDougal as they may have involved Bill or Hillary Clinton are related to Whitewater Development Corporation, Inc. (WWD) James and Susan McDougal and Bill and Hillary Clinton were partners in WWD. . . [Pages of the referral] discuss the check kiting activity involving the WWD account at MGSL.(278) According to the teletype, Mr. Banks had informed the FBI that he intended to research the referral and analyze the 300 documentary exhibits submitted by the RTC.(279)

On October 8, 1992, officials from FBI Headquarters and Main Justice met to discuss Crminal Referral C0004.(280) Present at the meeting were Mr. Raphaelson; Robert Mueller, Assistant Attorney General, Criminal Division; (281) Fred Verinder, Deputy Assistant Director, Criminal Division, at FBI Headquarters;(282) Mr. Kendrick; and Thomas Kubic, Section Chief, Banking Crimes Unit. Mr. Mueller indicated that even though the referral on its face did not contain enough information for the Justice Department to render an opinion, the FBI should investigate the matter to determine whether the case had merit.(283) As a result of the meeting, FBI Headquarters instructed its Little Rock Field Office to

conduct a limited investigation into the matters described in the Criminal Referral C0004 and specifically directed the office to review the exhibits.(284)

Although Mr. Bank assured the FBI that he would review the 300 exhibits, neither he nor Mr. Dodson ever reviewed them.(285) On October 16, 1992, Mr. Banks wrote to Donald Pettus, Special Agent in Charge of the FBI Little Rock Field Office, to inform him that the U.S. Attorney's Office would not participate in any investigation regarding Criminal Referral C0004 until after the 1992 presidential election.(286) Mr. Banks indicated that he believed no prosecutable case existed against any of the witnesses, and that "the only allegations having any credibility are against the McDougals and Anspaugh." (287)

On the same day, the FBI Little Rock Field Office also notified Mr. Kendrick at FBI Headquarters by teletype that the limited data "may indicate criminal activity on the part of the captioned subjects, James and Susan McDougal, and Lisa Anspaugh. However, USA is holding opinion of prosecutive opinion regarding these subjects in abeyance."(288)<http://whatreallyhappened.com/RANCHO/POLITICS/W/whitell.html>

MONSANTO GMO IS BI-PARTISAN

Relations between Monsanto, Delta & Pine Land and the USDA, on closer scrutiny, show the deep and dark side of the much-heralded genetic revolution in agriculture. It proves deep-held suspicions that the Gene Revolution is not about 'solving

the world hunger problem' as its advocates claim. It's about handing over control of the seeds for mankind's basic food supply—rice, corn, soybeans, wheat, even fruit, vegetables and cotton—to privately owned corporations. Once the seeds and their use are patented and controlled by one or several private agribusiness multinationals, it will be they who can decide whether or not a particular customer—let's say for argument, China or Brazil or India or Japan—whether they will or won't get the patented seeds from Monsanto, or from one of its licensee GMO partners like Bayer Crop Sciences, Syngenta or DuPont's Pioneer Hi-Bred International.

Saul Alinsky "...he who fears corruption fears life". Hillary was nicknamed "Alinsky's daughter".

Bill Clinton as the most corrupt president in history. He and Hillary were involved in quite a few scandals during his reign. Two of the scandals they share are Whitewater and the Vincent Foster death.

The Clintons were partners in several business ventures with Webster Hubbell (who became President Bill's Assistant Attorney General) and James and Susan MacDougal. Two of these ventures were the intertwined Whitewater Development Corporation and Madison Guaranty Savings & Loan. Courts later convicted the MacDougals and Hubbell of fraud and conspiracy in the Whitewater scandal. The Clintons were not indicted, though Hubbell's indictment referenced Hillary as his "1985-1986 billing partner" in the Rose Law Firm. Hillary was the Rose attorney in charge of Madison's legal matters.

When told that a questionable Madison loan violated Federal and Arkansas State regulations, Hillary said (according to testimony), "You [Madison bank officer] take care of the savings and loan matters and I'll take care of the legal matters." The U.S. Senate counsel investigating Whitewater stated at the time that "Mrs. Clinton...order[ed] the [Madison] records to be destroyed" while "there was a Federal investigation [into Madison's loan activities] underway..." At the very least, Hillary and Bill seem to have gotten away with breaking the law in the Whitewater scandal, while business partners less well-connected went to prison. The Clintons saved themselves by selling out their friends.
